DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 21 and 23 are rejected under 35 U.S.C. 102(b) as being anticipated by Skochdopole (6,060,407). In regards to claim 21, a frame (10) and substantially uniplanar, non-woven grid having a first pre-stretched grid configuration and a second stretched grid configuration (when the frame is installed, the grid will stretch to a second configuration) and comprising a plurality of closely-spaced primary members (24) and points of intersection (26) that are integrally formed with a pair of attachment strips, the closely spaced primary members having a first pre-stretched grid configuration and a second stretched configuration corresponding with the first pre-stretched grid configuration and the second stretched grid configuration, and the attachment strips (20) having a single pre-stretched border element configuration for the first pre-stretched grid configuration and the second stretched grid configuration; a plurality of fasteners (22) attaching the second stretched grid configuration of the uniplanar, non-woven grid to the frame through the attachment strips. In regards to claim 23, further comprising a frame (10), substantially uniplanar, non-woven grid integrally formed with a pair of attachment strips, wherein each of the attachment strips is comprising of pre-

stretch border element, wherein the pre-stretched border element is an elastomeric grid having a plurality of primary members and points of intersection there between; and a plurality of fasteners attaching the uniplanar, non-woven grid to the frame through the attachment strips, see figure 1.

Allowable Subject Matter

Claims 1-20 and 25-28 are allowed.

Claims 22 and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

The examiner has considered and reviewed the applicant's Amendment, filed on 12/18/03.

Applicant's arguments with respect to claims 21 and 23 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
